

Exhibit G

DECLARATION OF CHRISTOPHER CRAIN

My name is Christopher Crain and I declare as follows:

1. I am over eighteen years old and a resident of the State of Texas.
2. On January 9, 2017, I began serving a sentence in the custody of the Texas Department of Criminal Justice (“TDCJ”).
3. I was housed in the Clemens Unit. When COVID struck, there were some restrictions put in place there. For example, recreation was limited or cancelled, and when there was a positive test, the housing area where the infected person resided would go into lockdown.
4. However, the restrictions in the Clemens Unit did not prevent education programs from taking place. There were GED classes in the Clemens Unit – I completed my GED in 2019, prior to the pandemic, but these classes were paused only briefly in 2020 before resuming later in the year.
5. On February 5, 2021, I was approved for parole with a status of FI-5, meaning I could be released upon the completion of a five-month program.
6. Before starting my program, I was transferred multiple times, first to the Huntsville Unit, then to the Robertson Unit, before being sent to the Thomas Havins Unit to take my program.
7. I arrived in the Havins Unit on or about March 10, 2021.
8. At Havins, I was evaluated during an initial intake interview. The counselor wrote a the conclusion of that interview, in recommending me for the program, that “He will attend Small Group twice weekly for direct service hours. He will also attend monthly individual sessions.” The TDCJ documentation for that visit showed it lasted five minutes.
9. After that interview, I was placed in quarantine for seven days. During this period, I was in a five-person cell with four other people.

10. Once out of quarantine, I was housed in a bunk room with over sixty other individuals, in a single room with a row of two-level bunks on each side.

11. When the program purportedly began, it consisted almost exclusively of written work that was provided to us in the bunk room, to be completed in the bunk room.

12. We were informed that filling out the workbooks consisted of “Alternative Treatment.”

13. The only group sessions we received during this period were one hour on Tuesdays and Thursdays when we would discuss the worksheets with a counselor. We did not have any additional therapeutic sessions and we did not have any other group sessions at which MTC employees were active and participating during this period.

14. The timesheets that I completed early in the program reflect the fact that I was not receiving twenty hours of direct treatment per week. True and accurate copies of excerpts from these timesheets are attached to this declaration. For example, on the timesheet for March 21, only one hour of direct treatment was recorded.

15. We were told to fill out timesheets as directed by MTC staff, who posted a sample timesheet and directed us to fill out our timesheets to match it. We were directed to record multiple hours a day of “Alternative Treatment” on these forms. For example, I recorded eleven hours of “Alternative Treatment” on the week of March 21, and eighteen for each of the next two weeks.

16. Filling out the workbooks did not take three to four hours a day. Instead, we were given multiple short assignments, that took no more than a few minutes, and then told we had to record multiple hours of “Alternative Treatment” based on filling out those workbooks.

17. This written work consisted of worksheets that gave me essay prompts. I was expected to write essays or journal entries from the prompt. Some prompts called for 100 or 250

word responses. We were required to write, on average, one essay per topic every day, so around four essays total. Each individual was provided his own worksheet.

18. Additionally, I was required to record the uncompensated work that I performed on the timesheets. I was assigned to work in the kitchen for four hours each day, and instructed to record my time working in the kitchen as “GED/Education/Work.”

19. There were no GED or Education programs in Havins; these entries all reflect labor performed for no pay, not any treatment provided by MTC.

20. On or about April 6, 2021, I had a fifty-minute session with an MTC Counselor before moving from “Phase I” to “Phase II” of the program. This session was the longest one-on-one session I had with a counselor. Although this meeting took only one hour (as per my memory and the documentation), MTC staff told me I was required to record it at two hours on the subsequent time sheet, so I did so.

21. The only other meetings I had with a counselor were my initial five-minute intake interview and two 10-15 minute meetings, one of which took place when I moved from Phase I to Phase II, and the other when I moved from Phase II to Phase III.

22. From approximately April 7, when I began Phase II, until early May, we continued to receive workbook pages to fill out daily, and we continued to be told to record filling out the workbooks as “Alternative Treatment” for multiple hours a day.

23. For example, for each week from April 11, 2021 through May 2, 2021, I recorded 18 hours of “Alternative Treatment.”

24. On Monday, May 3, the programming situation changed. Starting that day, MTC began providing “programming” by having a counselor come to the bunk room and speak to the entire room for an hour on a given topic.

25. The bunk room had over sixty people in it during these sessions. We did not break out into smaller groups.

26. The room was so large that people in the back were not able to hear the counselors.

27. Sometimes the counselor conducting this session would read from a textbook, and sometimes the person would simply speak about his or her personal experience with those people nearest in the bunk room.

28. These sessions would go on for an hour, and then we were asked at the end of the week to record them in our timesheets as “Direct Treatment.” For example, on the week of May 3 through May 9, I recorded these one-hour sessions as directed by MTC, for a total of twenty “Direct Treatment” hours.

29. One of the sessions was called “Living in Balance.” I have since been shown the materials that are published by Hazelden Publishing under that title. I did not recognize the Hazelden publications as the materials the counselors used for this session.

30. I continued to record these sessions as “Direct Treatment” as required by MTC until I had a session to move from Phase II to Phase III. While the documentation for this visit records it as taking 50 minutes, in reality it took only 15-20 minutes.

31. Phase III resembled Phase II. During some weeks, counselors would come to speak to the entire bunk room and we were asked to record these sessions as Direct Treatment. Sometimes, particularly when someone tested positive for COVID, we would be provided workbooks again, and asked to record many more hours than we spent working on them as “Alternative Treatment.”

32. I had a third session on or about August 18, 2021 to discuss completing the program. This session took about twenty or thirty minutes.

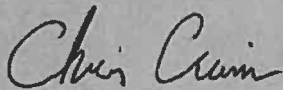

33. I was released from TDCJ custody and have since participated in an aftercare program designed to help me stay sober. That program, based in the community and conducted through real counseling sessions with dedicated participants, has helped me maintain my sobriety.

34. The program that I am participating in outside of prison is providing me with better guidance and tools than the program I participated in in Havins.

35. I filed multiple grievances about the programming I was provided. TDCJ took no action on the grievances.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on: November 11 2022

Christopher Crain

Exhibit G-1

RECOMMENDATION FOR TREATMENT

Client meets TDC guidelines for placement in supportive residential treatment per the following criteria: DSM-V diagnosis of substance use disorder. He is medically stable; not withdrawn from social contacts, coherent and rational. He has the ability to improve or be motivated toward recovery. His Meth use was excessive, but he was able to reduce or control it when motivated. He will participate in Alternative Treatment focused toward drug education, relapse prevention, cognitive intervention and HIV education. He will attend Small Group twice weekly for direct service hours. He will also attend monthly individual sessions and work specified treatment plan goals and objectives. He will address the following Problem areas:

1) Chemical Dependency w/ Relapse Prevention to address his meth use

2) Legal w/ Discharge Planning & Continuum of Care to address his criminal thinking

LEVEL OF CARE RECOMMENDATION

(Check one):

- 1. Not applicable
- 2. Level I - (Outpatient treatment)
- 3. Level II - (Intensive outpatient/partial hospitalization)
- 4. Level III - (Medically monitored intensive inpatient)
- 5. Level IV - (Medically managed intensive inpatient)
- 6. Level V - Supportive Residential

TDCJ ID #: 2111599

Problem Number	Type of Service	Date/Time of Service	Narrative with Signature
1,2	1 st ITPR	04/06/2021 6:30 AM – 7:20 AM	<p>D: The counselor met with the client to conduct his 1st individual treatment plan review. The client was also seen to phase from 1 to 2. The client shared his drug of choice is methamphetamines. He has completed all requirements to phase including writing a 10-page autobiography, reciting the MTC philosophy, writing an essay on Bill's Story, passing his orientation test, reciting the steps 1-3 of AA, and writing 1 slip and 1 ticket. The client shared he is now 31 years old and has been relapsed many times but did stay clean for 1½ at the age of 21 years old. The client shared he smoked weed from ages 12-14 years old but stopped because he did not like the way it made him feel. He shared he started drinking from ages 18-19 years old until he received a DUI and then he stopped. The client stated he was raised by his mother who was an addict until she kicked him out at the age of 14. The client stated he has served 4 years on a 20-year sentence for manufacturing and delivery x2, escape, and possession of controlled substance out of Hardin County. The client explained he was convicted of burglary of habitation and was put on parole but was not able to pass his urinalysis. He shared he would like to discharge through the Phase 1B program but after discussing the criteria he must meet and the expectations from the counselors he chose to go to halfway house.</p> <p>A: The client struggled while reading his autobiography because of his shyness. His low self-esteem is reflected in his demeanor and writing assignments.</p> <p>P: The client will write a good-bye letter to methamphetamines, explaining how using has affected his life and why he can never use again. He will develop a list of 20 safe coping skills he will use to manage stressful situations and will discuss with the counselor. He will complete a timeline of his illegal behaviors and interactions with the legal system.</p>

Problem Number (From Tx Plan)	Type of Service	Date/Time of Service	Narrative with Signature
Example: 1, 3, & 4	Gr. / Ed/ CM/Indiv.	MM/DD/YY 00:00 PM/AM	<i>Must include the date, nature, and duration of the contact, the topic of the session and the goals and/or objectives addressed, the offender's response and your clinical observation, along with a plan (any newly identified issues) and the signature and credentials of the person providing the service.</i>
1,2,3	Ind.	5/21/2021 1:30 pm- 2:20 pm	<p>D: Met with client to complete his 2nd individual session. Client completed a goodbye letter to meth, explaining how his use affected his life and why he can never use again. Client stated that he does not need meth in his life any longer, as he has overcome the need to use in order to fit in with others. Client stated that the world is full of opportunities now that he can stay sober. Client stated that he can be happy without meth, and he is comfortable with himself. Client stated that he knows he can make the rest of his life better by making good choices and staying away from meth. Client stated that he is going to live for himself, on his own terms, and for the first time in his life, things will be normal, and he has overcome his broken past in order to move forward. Client stated that he will be a good husband and father, the kind of man his family deserves. Client stated that he will concentrate on the little things and remember that the simple things in life make it worth living. Client developed a list of 20 "safe coping skills" he will use to manage stressful situations. Client stated that some of his coping skills include listening to understand, talking about issues before making decisions, expressing how he truly feels about things that bother him, staying away from things that trigger his addiction, finding and sticking to a routine, accepting that people are different and thus think differently, learn to trust people and ask for help when he needs it, stay active in his recovery, and walk away from stressful situations. Client completed a timeline of his illegal behaviors and interactions with the legal system. Client stated that at age 10, he began smoking cigarettes, at age 12 he began smoking marijuana, at 14 he began selling drugs; at age 17 he received his first traffic violation or driving with an invalid license; at 19, he received a DUI; at 20 he began using meth; at 21 he began selling meth and got into trouble with the law; at age 23 he went to prison for the first time; at 24 he was still selling meth and couldn't hold a job or be responsible; at 26 he got his first drug charge, as well as his home raided by the cops, which happened again when he was 27, at which time he went on the run; at 28 he got pulled over and went to jail; for possession, and signed for a 20-year prison sentence. Client stated he stayed in trouble in jail but in the past year he has begun to get his life together.</p> <p>A: Client was open and honest during the interview. He seems to be working the program honestly in order to gain knowledge and tools to help him stay in his sobriety upon release from the program.</p> <p>P: Client will complete a list of everything he has lost in his life because of his addiction, and complete a cost-analysis of his addiction.</p>

Individual Progress Note

Offender's Name: Crain, Christopher

TDCJ ID #: 211599

Problem Number (From Tx Plan)	Type of Service	Date/Time of Service	Narrative with Signature
Example: 1, 3, & 4	Gr. / Ed/ CM/Indiv.	MM/DD/YY 00:00 PM/AM	<i>Must include the date, nature, and duration of the contact, the topic of the session and the goals and/or objectives addressed, the offender's response and your clinical observation, along with a plan (any newly identified issues) and the signature and credentials of the person providing the service.</i>
1 2	Ind Review 2&3 COC & Discharge Packet	08/18/21 9-1030am	<p>D: Mr. Crain and counselor met to discuss his progress in the program. We did treatment plan review 2 & 3, his continuum of care, relapse prevention plan, and discharge packet. He completed CD worksheets 2 & 3. He has learned the disease concept of addiction. He developed a relapse prevention plan and an action plan for those triggers. He listed 10 reasons why he wants to stay clean and sober. He stated he is going to NA and intends to continue to attend when he is released. He started using when he was 19 and has used for about 7 years. He stated he is committed to staying clean and sober. He made a list of everything he has lost in his life because of his addiction and completed a cost analysis and it came to \$255,000. He learned the stages of changes, he believes he is in the contemplation stage. He identified his top 5 thinking errors that have caused problems in his life, what he can do to correct them, and how he could prevent them from causing him problems in the future.</p> <p>A: Mr. Crain appears to be invested in the program and his recovery. He put effort into his assignments. He has made plans and set goals that are achievable. He has the ability to stay clean, sober, and free of the legal system.</p> <p>P: Mr. Crain will continue to attend chemical dependency education groups and complete alternative treatment memos. He will stay in compliance with TDCJ and MTC.</p>
