Exhibit H

DECLARATION OF JOSHUA LADD

I. Overview

- 1. I am over eighteen years old and a resident of the State of Texas. I make this declaration pursuant to Title 6, Section 132.001(d) of the Texas Civil Practice and Remedies Code.
- 2. On or about October 18, 2018, I began serving a sentence in the Texas Department of Criminal Justice ("TDCJ").
- 3. On or about October 2019, the Board of Pardons and Paroles ("Board") approved me for parole with a status of FI-6R, meaning I could be released upon completion of a six-month program.
- 4. After I was approved for parole, I was unable to start my program for five months.

 During that time I remained incarcerated in the Telford Unit.

II. The MTC Programming in Gist State Jail Did Not Meet Minimum Standards

- 5. I was transferred to the Gist State Jail on or about April 7, 2020, supposedly to begin my programming.
- 6. After I arrived at Gist, I was interviewed by a counselor. The interview lasted approximately fifteen minutes. I was informed that programming would start once I received a "master plan."
- 7. In the recommendation for treatment that was created at the conclusion of the interview, the counselor wrote that I "would benefit from individualized, family and group counseling services."
- 8. The first section of the programming, called Phase I, consisted of rote memorization of rules and some paperwork assignments.
- 9. During Phase I, we did not have any group therapy sessions and we did not have any sessions with counselors. Instead, we were given written assignments, such as writing a life story or

writing out all of the rules that we had been told to memorize. The test I completed on the rules is attached to this declaration.

- 10. During Phase I, I and all others in the program spent nearly all of our time in the bunk room, which housed over fifty people in two rows of bunks on opposite sides of the room.
- 11. During Phase I, though I received no counseling or therapy, I was assigned to work in the kitchen on the graveyard shift.
- 12. I was also given worksheet assignments to complete during this time. I and others in the Gist State Jail were provided with paper worksheets with simple assignments, such as answering a single question, on them. I was also required to write my "Life Story" and was provided three pages to do so.
 - 13. None of the assignments in Phase I took more than a few minutes to complete.
- 14. During Phase I, I was required to record a total of twenty "Direct Treatment Hours" during each five-day week. None of these entries reflected an actual group session with staff members from MTC active and participating.
- 15. On or about April 22, 2022, I had a meeting with the counselor to "Phase Up" to "Phase II" of the program. The documentation for this meeting, attached to this declaration, lasted only 5-10 minutes.
- 16. After the meeting with the counselor, I was informed that I was starting "Phase II" of the program, but there was no change in what happened in the State Jail.
- 17. Phase II which I took from about April 23 through July 22, differed little from Phase I. We were still in the bunk room nearly all the time. We still were given paper worksheet assignments instead of counseling or group sessions. And we were still required to document classes and therapy sessions that never took place.

- 18. During this period, we were provided workbooks that had some information in them, told to read a few specific pages, then asked to fill out the worksheets based on what was in the workbook.
- 19. I do not recall the workbook that we were provided, but I have been shown copies of the cover of *Living in Balance* and *Commitment to Change*, and the covers I saw did not resemble the cover of the workbooks we were asked to read.
- 20. A sample of the worksheet assignments that we were given in Phase II is attached to this declaration. The worksheet categorizes each of the questions as representing an "hour of programming," but none of the questions took more than ten to fifteen minutes to answer.
- 21. While I answered all the questions and turned in my work, numerous people in the program did not complete their work. I never was made aware that any of the assignments were graded, evaluated, or even read by staff.
- 22. On May 26, 2020, I had a 19-minute meeting with the counselor, as documented in the records attached to this declaration.
- 23. As I entered Phase III, the unit was placed on a medical lockdown, which restricted our movements eve further. While the unit was in lockdown, we were not even asked to pretend to document sessions that did not happen. Instead, we were told to document four hours of "Alternative Treatment" each day.
- 24. As I wrote in my June 21 timesheet, during this period we "have not had Encounter Groups, we have not had phase or process groups either."
- 25. During the period in which we were given workbook assignments, counselors would not be present in the room. Occasionally counselors would walk by and look in the room to see if anyone was not looking at his workbook. If someone was not looking at his workbook, the

counselor would enter the bunk room, scream at the person, throw the person's personal belongings off of the bunk, and then depart.

- 26. There were a few occasions—no more than eight to ten—during the eight months that I was in Gist that a counselor would be present for a session that was described as a group session. On these occasions, a counselor would arrive and either speak to the group about her own experiences or stay silent while members of the group carried on a discussion.
- 27. On the few occasions when we had this sort of group session, we would be broken into groups of two, but each group would record the time it took to conduct both sessions as "Direct Treatment."
- 28. Instead, during the periods in which people were supposed to be filling out the workbook pages, they would pretend to have the workbooks nearby in case a counselor came and looked through the window.
- 29. The final workbook assignment was a "Relapse Prevention Plan," which I filled out based on what was provided to us in the workbooks. I completed the Relapse Prevention Plan in early September 2020.

III. MTC Forced Program Participants to Complete Inaccurate Timesheets

- 30. Although we did not have any group therapy sessions or any counseling, we were all required to fill out documentation claiming we did have such therapy.
- 31. We were provided with a "Weekly Summary Progress Note," which included a timesheet, each week. Samples of my timesheets for Phase I are attached to this declaration.
- 32. A sample completed timesheet was posted on the wall. We were instructed to fill out our timesheets exactly like the sample, and instructed that if we did not complete the timesheet as it was posted on the wall, we could be disciplined or have our parole revoked.

- 33. The posted sample contained entries for group therapy sessions that did not take place. For example, I was required to record that I participated in a one-hour daily Encounter Group on each weekday of Phase I. But I did not participate in Encounter Group during those three weeks.
- 34. Although the worksheet assignments took only ten or fifteen minutes to complete, we were forced to record each assignment as though it represented a full hour of programming. For example, during the week of April 27, I was required to report five hours of Encounter Group,
- 35. As I wrote on the form that week, however, "We had no official Encounters, though I still continue to pay attention to the things I do or think or say."
- 36. At the bottom of the timesheets for this period, there is a printed notice that program participants were "given daily handouts for group assignments that they do on their bunks during group hours."
- 37. But this description is misleading: there was no evidence that the daily assignments were read, and no MTC staff participated in or guided us in the process of completing the assignments. Moreover, the assignments took mere minutes, not the hour we were compelled to record.
- 38. During Phase III, MTC continued to require that I record twenty hours of Direct Treatment that I did not receive. For example, on the week of May 8, I recorded five hours of Encounter Group, three hours of Phase Group, and three hours of Step Work. None of these group sessions took place.
- 39. During Phase III, we did not have group therapy sessions aside from the rare instances when a counselor would come to the bunk room, and yet each week we were required to record short written assignments as "Alternative Treatment" that took hours.

- 40. For example, on July 27, I was forced to record twenty hours of "Alternative Treatment." But, as noted on the form, all that had really happened that week is that I "completed pages 1-7 in my Phase III workbook." It did not take anywhere near twenty hours to complete the seven workbook pages.
- 41. During the program at Gist State Jail, I received no more than eight or ten group therapy sessions where an MTC counselor was present and actively participating.
- 42. During the program at Gist State Jail, I never received a one-hour therapeutic appointment with a counselor.
- 43. During that time, I sent a letter describing the programming, which is also attached to this declaration. The statements in the letter were true when I wrote them and they remain true today.
 - 44. I was released on or about November 17, 2020.

My name is Joshua Ladd, my date of birth is October 2, 1974, and my address is 107 Dove Lane Kyle Texas, 78640. I declare under penalty of perjury that the foregoing is true and correct.

Executed in Ector County, State of Texas, on the day of November, 2022.

Joshua Ladd

Exhibit H-1

Recommendation for Treatment

Counselor believes that offender would benefit from treatment in a Therapeutic Community. He would benefit from individualized, family, and group counseling sessions. He must be committed to terminating his substance use, cease all criminal activity, and become a productive, pro-active member of society. He needs to obtain a parole plan. He also needs to create a relapse prevention plan while in treatment at LeBlanc. He needs to establish himself in a 12-Step support group such as AA, NA, or Winner's Circle. He also needs to establish a relationship with a sponsor.

| F3- | Joshua Lodd Orientation Sictures are a hint) and list at least one orample of each king. |

The following Alternative Treatment Program/Assignments are for clients assigned to <u>Phase II</u> (Cognitive) of treatment.

10-minute break between each hour * times can be adjusted

First Hour of Programming:

For each component on a Self-Control model describe how you met each need while at home.

Second Hour of Programming:

For each component on a Self-Control model describe how you met each need while in prison.

Third Hour of Programming:

Why is determining your thinking errors so important to change?

Fourth Hour of Programming: Self Study

How can you Euphoric Recall cause a relapse, what can you do to combat that?

Each client is responsible for completing all assignments each day as independent study. If the client is in a *Direct Service Hour* with a counselor during one of the above noted assignments, they will still be responsible for the assignment. The Direct Service Hour (process group of ~ 10) held by staff, will be discussing the assignments from the previous day. Group sign in sheets, in accordance with SATOM, will be maintained for each Direct Service Hour.

Example

Larry Gist Unit 3295 FM-3514 Beaumont, Texas 77705 409-727-8400

Progress Note

Offender Name: Ladd, Joshua

Offender ID#: 1368894

<u>Date</u>

Type of Session

Time of Session

05/26/2020

Monthly & Individual Progress Note

9:06am - 9:25am

Note:

Due to Unit being on Lockdown for COVID-19 quarantine no contact has been made with this

offender for this time period. He has been given worksheets daily to complete on his bunk...

Ms. T. Jones, LCDC

05/26/2020

TAJ:

This letter is just a quick informative letter To

supplement The survey.

99% of people here, including myself, were delayed for months of our scheduled start date, which prolongs the program completion date of everyone, in Turn creating a perpetual wating list that never decreases or gets caught up.

The entire program is a scam, period, We are not programming, but of course one threatened with program extensions if we do not fill out the tracking sheets, which translate into "billable hours", so we are participating in this fraud if we want to go home.

I sent in an example of out daily assignments used just to say we are programming. Everybody just writes bagus crap so they can get out. The 'program' is producedous. Each of us could do this from home, if we aren't in groups for Covid-19 anyway, and we see no counselors AT All except when we 'phase-up' in which we sign a form essentially saying we are programming, yet they also provide appropriate answers for their test! Anyone else committing this fraud would be

charged with a felony. They are only keeping as for monetary gain. The Tracking sheets and sign-in sheets are so our "paper hudit" upon completion looks legitimate for the parole heard. No body looks at or grades ANY paperwork. I have is pages of essays that I wrote as part of my Master Trutment Plan, only to find out no one looks at them, no one asks for Them, and no one cures, I get laughs because I actually did them, for nothing we been eating a peanut butter ; meat sunch everyday, 3 times a day. No fruits, No vegetable nothing to passibly build our immune systems up. on weekends we get stated duked a meal, only geth. Fed Twice a day. The rations are hardly enough to sustain a 10 year old child.

whe get no recreation, we get one five man phone call a day and that just started, it was a off completely. I feel like I'm in a 3 Rd work country. No visits, no food, no rec,

I've written To Austin Padde Board and Requested Reconsideration, as howe numerous other offerders, ye we receive no response, our families Try To fin
